

* Basic terminologies & their properties

Dimensions

- Cannot be aggregated
- Can be sorted alphabetically
- Are usually discrete but can be converted into continuous

Measures :-

- Can be aggregated
- Cannot be sorted alphabetically
- Are always continuous

Discrete fields :-

- Are shown in blue color

Continuous fields :-

→ Are shown in green color

* Imp Note

→ Its not necessary that dimensions are blue & measures are green. Color depends on whether the field is discrete or continuous.

Hierarchy :-

→ we can create hierarchies of dates.

Year → month → day → hour → second

→ any one of these can work without other

→ these fields can be discrete or continuous.
